

About us

Owners: Gail Whitman and Sharon Kaplan

Sharon Kaplan MSW, CRTS and Gail Whitman each have more than 30 years experience working with families; Sharon as a Social Worker and Gail as an Administrator.

We understand the emotional and physical challenges of later life moves because we have been there. We have the personal experience of helping our own parents with moves to smaller homes, assisted living, and Alzheimer's care. We work **respectfully** and **patiently** with our senior clients, **cooperatively** with families and **effectively** with all service providers. We have the proven **managerial** and **organizational** skills to coordinate your move. There is no other job we would rather be doing at this stage of our lives. We have the **passion, desire, and optimistic attitude** to guide you successfully through your move.

We are members of the **National Association of Senior Move Managers** and **Certified Relocation and Transition Specialists** and committed to their Codes of Ethics.

"Your help and organization saved us so much time and energy!"
